4K Digital Microscope – Advanced Imaging for Precision Work

Unlock the power of Ultra-High-Definition imaging with the 48MP Digital Microscope Camera, designed for professionals in Electronics Repair, Scientific, Industrial, and Research environments. Equipped with cutting-edge features, this microscope ensures exceptional clarity and ease of use for detailed inspection and analysis.

- > **4K Resolution:** Capture detailed images and videos in 4K, perfect for visual inspection.
- > **Dual Connectivity:** Easily connect via HDMI to an external monitor or use USB for advanced analysis on a PC / Laptop with compatible software.
- > **Customizable Image Settings:** Adjust Brightness, Auto White Balance (AWB), Contrast, Saturation, Freezing, and Mirror Left / Right, Up / Down to match your Application and get the best visual results.
- > **Working Distance:** 50mm ~ 580mm
- > **Visual Field:** 2.7mm~70mm
- > **Flexible Lighting:** Adjustable 56-LED ring light with variable intensity.
- > **SD Card Slot:** Save images and videos directly to an SD card using the remote control.
